## AUSTRALIA AND NEW ZEALAND EDUCATION LAW ASSOCIATION

### Current Issues in Education and Law 2018 - AUCKLAND

There are many education law issues currently facing schools. This seminar will focus on discussion of solutions to some of these problems:

- **The Harmful Digital Communications Act 2015** – what responsibilities does the school have when dealing with students who use social media to spread rumours or bully etc outside school hours, and in particular when they are using sites that are school-sanctioned?
- **Blended families** – non co-operative parents, court orders, parenting and guardianship. Issues surrounding the obligations set by the court
- **What do schools do with students who get dropped off at 7 and/or may not get picked up from school until after 5** – what does the law say about offering supervision – what about when school starts late (eg PD mornings)

The format will encourage questions and discussion from those participating and allow attendees to raise other issues of current interest.
